

Introduction to Forest School OCNWM Level One

An Introduction to Forest School is intended for individuals with little or no experience of working in the outdoors with children or young people and whose aim is to build knowledge and confidence in the Forest School approach to learning, environmental impact and learners safety.

Participants are introduced to the benefits of learning in the outdoors and the philosophy of Forest School. It is, therefore, appropriate for anyone wishing to learn more about how best to support Forest School sessions or engage their own children to spend time in the natural environment. This includes parents, group volunteers, support workers, nursery nurses, youth workers, community workers and carers.

Training

Training is held over three consecutive days from 9.30am-2.30pm at Hill End. Participants are required to attend one Forest School session to complete an Observation Assessment and Reflection Log.

Course Details

- One unit of study: Introduction to Forest School Principles
- Three credits
- Thirty hours of taught and self-led study
